

1. Types of mediums ?

Radio frequency (wireless)
Electrical Signal
Light Signal } wired

2. Write down switch 8-pins ?

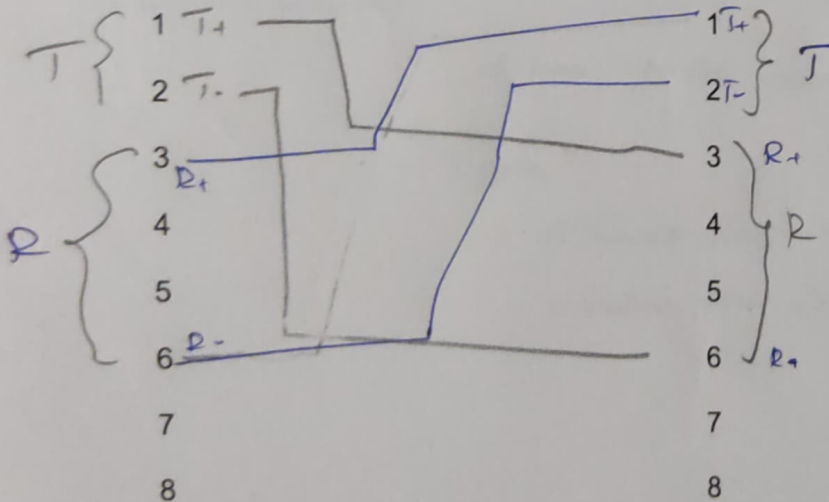

T₊ 1 }
T₋ 2 } Transmitter

R₊ 3 }
V₊ 4 } Receiver
V₋ 5 }
R₋ 6 }

- 7

- 8

3. Connect utp cable between two devices

4, Explain AUTO MDIX ?

- Ethernet feature that automatically detect the type of cable connected (straight through or crossover) and configure the port accordingly

5, Explain POE injector ?

6, Explain POE switch ?

- Send both data & electricity (or) power through the same Ethernet cable

7, Explain types of nic & function ?

- Convert binary to electrical signal and electrical to binary signal
- It has MAC and IP Address
- Types
 - Ethernet NIC $\rightarrow$ Through Electrical Sig
 - Wireless NIC $\rightarrow$ Through Radio signal
